

Long Range Rifle-III Moving Targets

STORM MOUNTAIN, INC.
Training Division 

This course covers only one area of instruction; moving targets. The student will receive training on team techniques and communication, advanced ballistics, windage calculations for movers, holds and leads for various speeds and distances for moving targets, known distance moving target shooting from 200 through 800 yards.

Ammunition requirements: 500 rounds match grade ammunition (min).

Prerequisite: LR-I.

Required equipment: Scoped non-magnum caliber rifle, bipod, 20x (min) spotting scope, data and/or log book, appropriate eye, ear, knee and elbow protection, clothing suitable for weather conditions.

Note: It is recommended that LR-III students attend in teams of two whenever possible. Also, it is mandatory that students have either a mildot or TMR reticle in their scope and that they also have either target or BDC type turrets. It is strongly recommended that students contact the office and discuss with an instructor the suitability of the rifle and scope they intend to use.

Length/Cost: 3 days, \$750.

Dates: August 25-27, 2017.
